1. How likely you'll be interested in a second workshop, maybe more weeks, more projects, maybe another languages and more computational science concepts. Would you be down?

* Please let us know your thoughts. We wan't to keep increasing this project (maybe a advanced_python /Fortran/C++ workshop next time, who knows? Sky is the limit) *

Of course. If theres another workshop I would like it to include more specifications on how to use plotting in python. Also it would be good to program visual interfaces so we can comfortably use the program to introduce values and get the results

2. How far are you with your project? And what would you like to do with your knowledge once finishing this workshop? *

I will work on more projects and perhaps create for myself codes that I can use in the future

3. Do you have any suggestions for us to improve future events?

Perhaps just to organize the workshop so that we can get more time to learn. more workshop days or longer sessions

4. What did you like most about the event?

the examples. and that if I had a question you helped me to understand it very well

5. How satisfied were you with the event?

- ☐ Extremely satisfied
- ☒ Very satisfied
- ☐ Somewhat satisfied
- ☐ Not so satisfied
- ☐ Not at all satisfied

6. Prior to the event, how much of the information that you needed did you get?

- ☐ All of the information
- ☒ Most of the information
- ☐ Some of the information
- ☐ A little of the information
- ☐ None of the information
